DETAILED ACTION

1. An examiner's amendment to the record appears below. This was made to expedite allowance of claims 1, 3-4, 7-8, 23, 26-31 (Group I) by canceling out the remaining claims (Groups II and II – claims 11, 22, 24-25, 32-37). Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Please cancel claims 11, 22, 24-25, 32-37.

3. Authorization for this examiner's amendment was given in a telephone interview with Mr. Ken Wright on 12/10/04.

4. The following is an examiner's statement of reasons for allowance: in view of applicant's comments, it is seen that the invention's use of screen element superclass in the context of the claims to detect the ability to process the input device event, is not provided in the art of record including Guillen, and that motivation would not exist to combine all the features present in independent claims 1 (method) and 26 (program instructions). Thus claims 1, 3-4, 7-8, 23, 26-31 are not set forth in the prior art of record. The remaining claims do not bring out the use of the superclass features and

would still be rejected. The cancellation of these remaining claims thus renders the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
